

2023

Beekeeping for Beginners

Purpose of the Course

To teach you the basics of beekeeping so you are ready to start keeping bees in the spring, either with your own hive, or, by attending our teaching Apiaries.

What we cover

- Introductory session
- A quick guide to Bee Biology
- Setting up your Apiary... and your Bee Garden
- Beekeeping Equipment
- Managing the Bees
- The Beekeeping Year
- Keeping bees healthy
- Products of the Hive

Following on

For those who want to learn more you will be welcome to join Croydon Beekeepers and take part in our range of activities.

- WhatsApp group that provides informal support
- Practical Sessions in our Teaching Apiaries (Spring 2023)
- Honey extraction meeting in the summer

...and for those of you who get hooked...

The start of a lifetime of learning about bees and beekeeping.
